DDEC- Continuance of Learning Plan

Dear Parent(s):

The Dehcho Divisional Education Council (DDEC) recognizes the serious impact that school closures have on students, parents, and community members and is committed to providing food support for families in need and continued learning for all our students.

Food support will be available in each community in a format that best fits the local context. This format may include gift cards to the local grocery store, food packages being home delivered, or setting up a store account.

Principals and teachers have been busily preparing learning packages/platforms for students. Again, programming will be tailored to best fit the given community context. In some cases, student packages will be available for pick-up at the school or home delivered. In other instances, programming will be available online with telephone support offered. All programming will be made available as of April 14, 2020. Please refer to the document 'NWT Education Bulletin' for a more thorough description on programming. A copy of this document can also be found on our website.

The central office team of DDEC has prepared a Business Continuity Plan in conjunction with ECE and other government agencies. The team is in daily communication with these parties to ensure that our respective communities continue to receive the best level of support amidst the current pandemic.

Best Regards,

Philippe Brulot (DDEC- Superintendent of Schools)
